

OUR ADVANCED INTRALOGISTICS PORTFOLIO

is an international group of several brands.

The Advanced Intralogistics division combines the warehouse & logistics expertise and experience of system integrators and application specialists:

OUR OUTSTANDING CUSTOMIZED SOLUTIONS, FROM THE WAREHOUSE, TO END-OF-LINE

MOBILE ROBOTICS

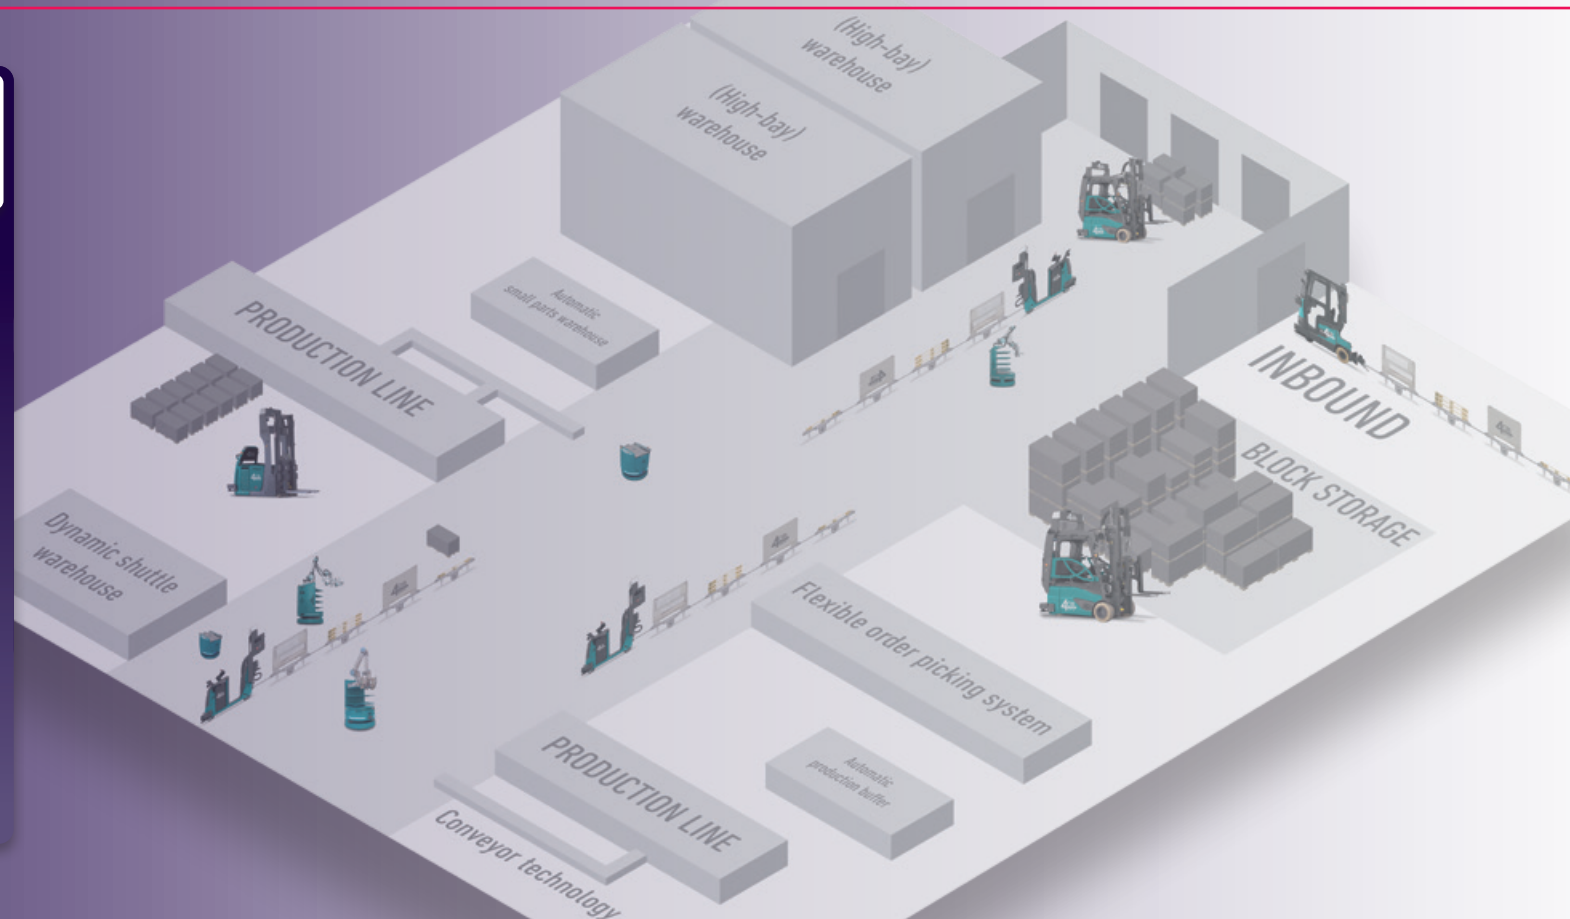

- Heterogeneous AMR solutions
- Exceptional flexibility & availability
- Safety & accuracy
- Full interconnectivity
- Dual-use (autonomous & manual)

Sectors: Automotive | Pharma | Healthcare | E-commerce

Headquarters in Leinfelden-Echterdingen and site in Plattling (GER)

Autonomous forklifts | Indoor & outdoor autonomous tugger trains | Autonomous cobot | Conversion kit for industry-standard vehicles | In-house software development

WAREHOUSE LOGISTICS

- Turnkey solutions & retrofitting
- General contractor
- Software integration
- Data management

Sectors: Industrials | Automotive & automotive suppliers | Chemistry & healthcare | Distribution & logistics

A brand by MFI GmbH & Schiller Automatisierungstechnik GmbH

Sites in Frankenthal, Benningen, Nieheim and Osterhofen (GER)

(High-bay) warehouse solutions | Conveyor technology | Intralogistics software | Simulation | Robot systems | Service & retrofit | Control technology | Mechanical engineering | Control cabinet manufacturing

OUR OUTSTANDING CUSTOMIZED SOLUTIONS, FROM THE WAREHOUSE, TO END-OF-LINE

FOOD LOGISTICS

- Storage and material flow solutions
- Customized, flexible & deep-freeze
- Hygienic design (Stainless steel technology)

Sectors: Food retailers | Bakeries | Pet food | Meat industry

Headquarters in Benningen am Neckar (GER) with 2 assembly sites in GER

Storage & retrieval units | Storage systems | Universal stackers | Flexible picking storage systems | Bread packaging robots | Mobile paper magazines | Warehouse management & material handling software

STANDARDIZED INTRALOGISTICS

- Solutions for material flow, picking, packing, palletizing and dispatching preparation
- Greenfield & brownfield
- Flexible and scalable solutions

Sectors: Warehousing | E-commerce | Retail | Fashion

Based in Toledo (ESP) with an assembly site

Full-service provider | Spiral lifts | PTL systems | Carton box forming machines | Carton box covering machines | Automatic label and delivery note process systems | Scale machines | Take-away conveyors

Headquarters located in Dresden (GER), subsidiary in Utica/ New York (USA), branches in Taiwan, Singapore, Japan

One-stop-solution provider for automating material flows and handling processes | Mobile Robots | Robot Cells | Stocker Systems | Conveyor Solutions | Material Identification | Purge Systems | Consulting & Engineering | Systems Integration | Technical Services

CLEANROOM LOGISTICS

- Storage and material flow solutions
- Customized and flexible comprehensive solutions
- Up to ISO class 3

Sectors: Technology | Electronics | Semiconductors

Headquarters located in Osterhofen (GER) and site in Arnstadt (GER)

Warehouse systems | Radial & linear stockers | Transfer stations | Transport systems | Software and quality assurance | Solutions for 200mm and 300mm carriers | In-house fabrication cleanrooms for pre-assembly and pre-commissioning

WORLDWIDE BEST-IN-CLASS AUTOMATION SOLUTIONS FOR THE ENTIRE INTRALOGISTICS VALUE CHAIN

Together, we develop uniqueness and customized applications:

- Turnkey solution provider for a fully-automated high-bay warehouse (70,400 storage spaces)
- Upgrading an existing automotive warehouse with a direct link to production
- Flexible AGVs with 99.986% availability for the full in-house supply chain
- Hygienic design: flexible & space-saving food intralogistics solutions including automated bread handling systems innovation
- Customized deep-freeze multiflex warehouses (20,000 pallet spaces)
- Flexible & customized long-term storage systems for a semiconductor fab
- Flexible AGVs for cleanroom FOUNDRY handling
- Fully automated baggage drop-off & flexible airport logistics
- Optimizing e-commerce warehouse operations: commissioning, storage, material flow & handling

LEADING IN AUTOMATION

- BENEFIT FROM OUR GLOBAL PLATFORM AND LOCAL TEAMS AT OUR SITES IN EUROPE, NORTH-AMERICA AND CHINA.

OUR SERVICES FOR YOUR INTRALOGISTICS' ENTIRE LIFECYCLE

CONSULTING

- Customized and specific concept development
- Prototyping & simulation
- General contracting work

PLANNING

- Detailed planning & design
- Electrical & mechanical engineering
- Simulation, virtual commissioning & software
- Prototyping
- General contracting work

REALIZATION

- Manufacturing & production
- Assembly & integration (Virtual) commissioning & digital twin
- Electrical & mechanical installation
- General contracting work

SERVICE & SUPPORT

- 24/7 service
- Safety & regulatory requirements
- Maintenance & retrofit

SCIO IS FAR MORE THAN JUST ADVANCED INTRALOGISTICS!

Members of

SCIO[®]
AUTOMATION

COMBINED E2E AUTOMATION SOLUTIONS FOR
INTRALOGISTICS AND PRODUCTION PROCESSES

>12 CORPORATE BRANDS

>1,500 EMPLOYEES

>35 INTERNATIONAL LOCATIONS

\$270 MILLION OF TOTAL OUTPUT

SCIO is a platform that allows its corporate brands to join forces, pool their expertise and benefit from SCIO's strong market position, while still being able to be their customers main point of contact. We create added value for our customers by supporting them on their journey towards a smart factory.
