

OUR DISCRETE AUTOMATION PORTFOLIO

is an international platform of several brands.

The Discrete Automation business segment combines the expertise and experience of

The logo for AUTKOM, featuring the word "AUTKOM" in a blue, bold, sans-serif font. A stylized blue and white symbol resembling a gear or a stylized "A" is positioned to the right of the text.

AUTKOM

The logo for Industrial Automation, featuring the words "Industrial Automation" in a blue, sans-serif font. A small red triangle is positioned above the letter "n" in "Automation". Below the main text is the tagline "Forward together." in a smaller, italicized font.

Industrial Automation
Forward together.

The logo for mr automation gmbh, featuring a grid of nine grey squares with one square in the bottom right corner highlighted in green. To the right of the grid is the text "mr automation gmbh" in a blue, sans-serif font.

mr automation gmbh

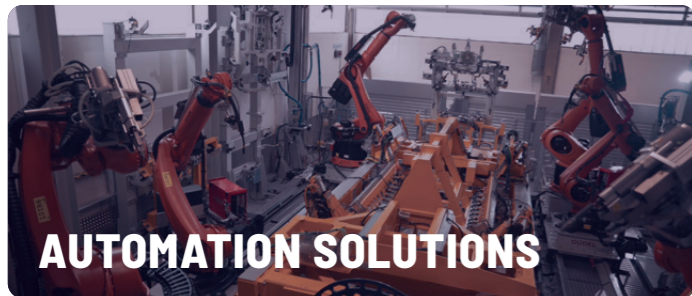

The logo for VESCON Systemtechnik, featuring the word "VESCON" in a large, bold, blue, sans-serif font, with "Systemtechnik" in a smaller, blue, sans-serif font below it.

VESCON
Systemtechnik

The logo for VESCON Automation, featuring the word "VESCON" in a large, bold, blue, sans-serif font, with "Automation" in a smaller, blue, sans-serif font below it.

Automation

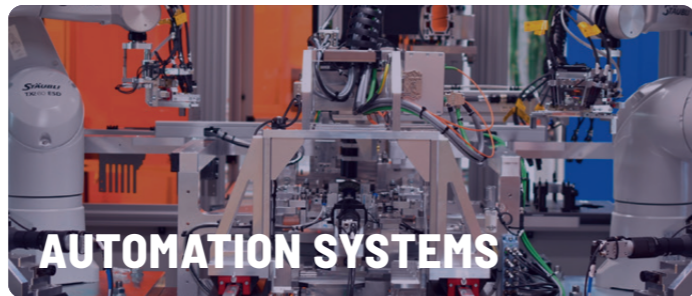

OUR OUTSTANDING SOLUTIONS, PRODUCTS AND SERVICES

AUTOMATION SOLUTIONS

Electrical Engineering & Programming

- Body shell assembly
- E-mobility & battery (module) assembly
- Manufacturing automation
- Smart production software (HIBERION)

AUTOMATION SYSTEMS

High-Performance Special Machinery

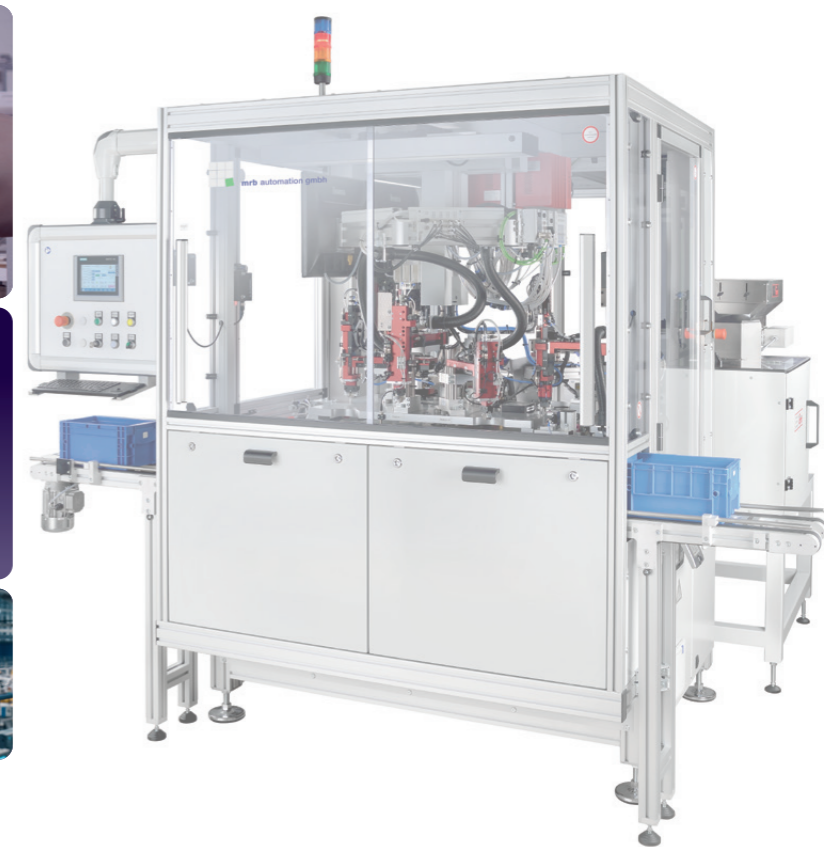

- High-precision alignment & calibration systems
- Measuring & testing systems
- Assembly lines, robotic cells
- Manual workstations, semi-automated, fully automated, system integration

AUTOMATION SERVICES

Technology & Service Partner

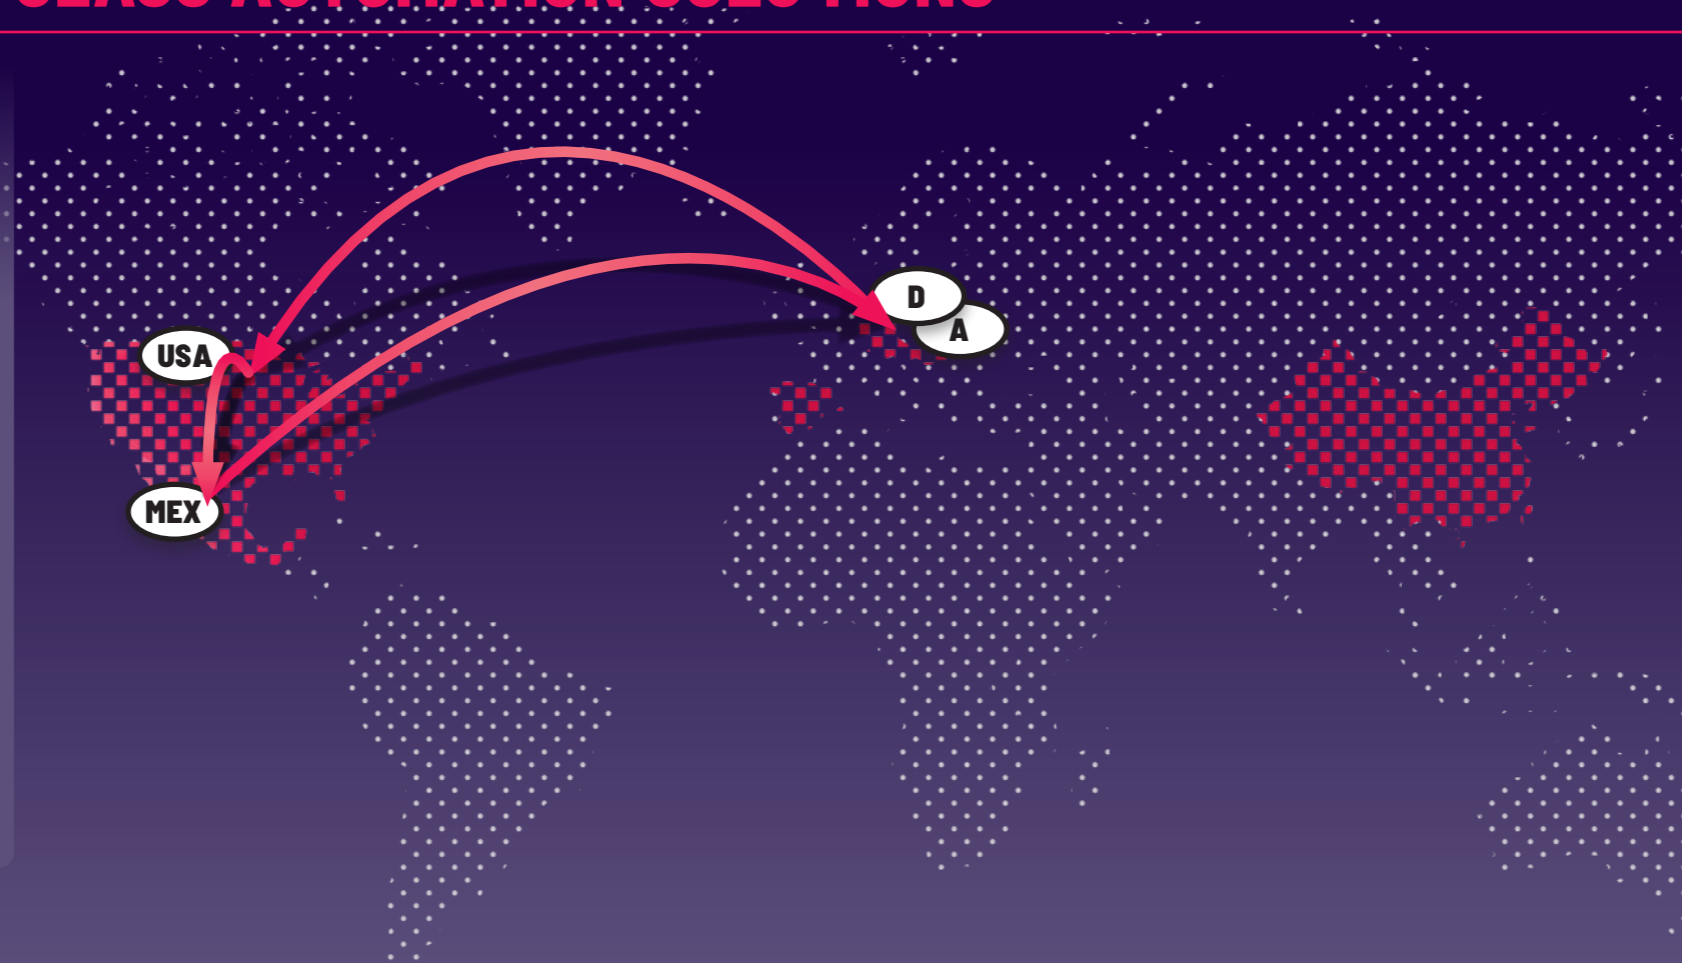

- PLC engineering
- Virtual commissioning & digital twin
- Project engineering & collaboration software (S03)
- After-sales & safety services
- Vision technology

WORLDWIDE BEST-IN-CLASS AUTOMATION SOLUTIONS

Together, we develop uniqueness and customized applications:

- Battery assembly lines for vehicles
- Speed automation lines (5-10 sec.)
- AGV-based assembly lines
- Automated wire harness assembly
- Automotive assembly: headlamps, fascia, sunroof, panels
- Electronic components: actuators, vision systems
- Adjustment systems for headlamps
- High-precision adjustment stations (<math><2\mu\text{m}</math>)
- Automatic alignment systems for high-resolution position sensors
- Calibration machine for spindle axis sensors
- Measuring systems for cylinder heads
- HIBERION software developed in-house to optimize production processes

LEADING IN AUTOMATION

- BENEFIT FROM OUR GLOBAL PLATFORM AND LOCAL TEAMS AT OUR SITES IN EUROPE, USA AND MEXICO.

OUR SERVICES FOR YOUR MACHINE'S ENTIRE LIFECYCLE

PLANNING

- Concept Solution
- Simulation
- Design for Automation
- Prototyping
- OEE analysis

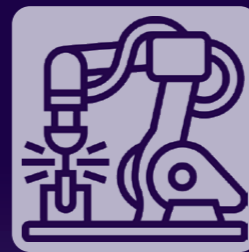

ENGINEERING

- Hardware and mechanical design
- PLC programming
- Digital twin
- Safety services
- Engineering & collaboration software (S03)

REALIZATION

- Manufacturing
- Assembly | Integration
- (Virtual) commissioning
- Electrical & mechanical installation
- Project management
- Electrical cabinet construction & installation

PRODUCTION

- Run-up support
- Optimization
- Stabilization
- Smart production software (HIBERION)

AFTER-SALES

- Retrofit
- Safety services
- Training
- Maintenance
- 24h remote service team
- Spare parts

OUR DISCRETE AUTOMATION BRANDS

VESCON
Systemtechnik

Located in Albersdorf-Prebuch (Austria) with their own production facility

Sectors: Automotive | Medical & pharma | Renewable energy | Steel & industrial

Full-service partner for alignment systems | Measuring & testing systems | Special machinery | HIBERION smart production software | Spare parts | Maintenance

Contact us today!

Industrial Automation
Forward together.

3 facilities located in Michigan, Alabama (USA), Querétaro (MX)

Sectors: Automotive | Medical & pharma | Household appliances | Agricultural | Energy

Assembly lines | Robotic cells | Standalone stations | Fully vertically integrated company that can offer turn-key solutions | Spare parts

Contact us today!

 **mrB automation gmbh**

Located in Ilmenau (GER)

Sectors: Automotive & headlamp manufacturing | Plastic technology | Sensor technology | Medical engineering

High-precision systems for adjustments, calibration, measuring & testing (down to less than one micrometer)

Contact us today!

VESCON
Automation

3 facilities located in Frankenthal, Eching (GER) and Győr (Hungary)

Sectors: Automotive

Body-in-white lines | Battery module assembly | E-mobility | Assembly & production logistics | Control cabinet construction & installation

Virtual engineering: Virtual commissioning | Digital twin | Simulation | SO3 project engineering & collaboration software

Contact us today!

AUTKOM

Located in Ladenburg (GER)

Sectors: Automotive | Agriculture | Environment | General industry

Electrical engineering (CAE) | PLC & robot engineering | Simulation & virtual commissioning | Electrical installation | PLC & robot commissioning | Retrofitting & optimization | Maintenance & support | 24h regional support team

Contact us today!

Located in Duisburg (GER)

Sectors: Production plants | Special machinery

PLC engineering | PLC development | PLC commissioning | Robotics | Retrofitting & optimization | Safety services | Training & qualification programs (TIA & safety)

Contact us today!

SCIO IS FAR MORE THAN JUST DISCRETE AUTOMATION!

COMBINED E2E AUTOMATION SOLUTIONS FOR
INTRALOGISTICS AND PRODUCTION PROCESSES

>10 CORPORATE BRANDS

>1,100 EMPLOYEES

>30 INTERNATIONAL LOCATIONS

\$200 MILLION OF TOTAL OUTPUT

SCIO is a platform that allows its corporate brands to join forces, pool their expertise and benefit from SCIO's strong market position, while still being able to be their customers main point of contact. We create added value for our customers by supporting them on their journey towards a smart factory.

THIS IS WHAT WE STAND FOR

**SCIO SUPPORTS
ITS CUSTOMERS
ON THEIR
JOURNEY TO
INDUSTRY 4.0.**

SCIO's expert services are the key to their success in the digital age.

**AS A SYSTEM
INTEGRATOR,
SCIO AUTOMATES
PRODUCTION
AND LOGISTICS
PROCESSES
FOR GREATER
EFFICIENCY.**

All planning, implementation and service from a single source.

**AS A TECHNICAL
INNOVATOR,
SCIO DEVELOPS
VALUE-ADDING
PRODUCT SOLU-
TIONS.**

Tailored to customer-specific needs.

**SCIO STANDS
FOR QUALITY,
RELIABILITY
AND VALUE.**

Together with its customers, SCIO improves processes and systems to deliver clear benefits by turning industrial plants into smart factories.
