

SO simple  
SO fast  
SO clever

## Projektmanagement & Engineering

Cloud software for plant engineering and complex automation solutions

- ⇒ **Reduces project costs** by 20-40%.
- ⇒ **Increases productivity** by 30-50%
- ⇒ One **centralized communication platform** for all project participants and their departments, no matter where they are
- ⇒ **High-speed engineering** of the highest quality

### SMART OVERVIEW

All data in a single, clear layout.  
Real-time tracking. Collaborative.  
EPLAN Engineering and much more

All **project data** in one tool with a list of open points and layout, **visualizing project status**, electrical and mechanical data

From planning to assembling and commissioning, the project status can be accessed in **real time**

In addition, you can **automatically generate** the **EPLAN** documentation. The depth of detail can be scaled as needed

...and last but not least, we have a **mobile app**, for recording status on site and more

For simple, fast and clever project management and engineering.
